**SPONSORSHIP OPPORTUNITIES**

The WSS2010 conference brings professionals together from a variety of disciplines, all with an interest in waterside security. Protecting ports, harbours, and inland waterways from the threats of terrorism and criminal activity requires innovative thinking in areas as diverse as technology, operations, policy, human factors, risk analysis, international law, and economics. The conference covers three major waterside security topics:

- Emerging technologies
- Drivers and constraints on new technology
- Integration of new technologies

Full details on the venue and social programs can be found on the website, [www.wss2010.org](http://www.wss2010.org).

WSS2010 sponsorship is an opportunity for exposure to military and civilian security providers, and to security planners who may have unmet requirements in mind. Be among those in the forefront on waterside security and make yourself known as one of the pace-setters in this arena.

For all sponsors, the **general advantages** are the following:

- The logo of the sponsor will be present on all printed matter.
- Inclusion in the sponsors list printed in the conference program.
- A sponsor presentation will be inserted in the conference CD proceedings: this will include a short description (1 page provided by the sponsor) with a link to the sponsor's website (format requirements to be provided at a later date)
- A poster with all sponsor logos will be displayed at the social events and in conference rooms
- One complimentary free conference registration
